

## The Gregg School

**Market Sector:** Education

**Client:** The Gregg School, Southampton

**Main Contractor:** Rollalong Ltd

**Project Value:** £250,000

### The brief:

The Gregg School is a much sought after co-educational independent day school in Southampton catering for approximately 320 students. Ensuring that students benefit from the latest in technological advancements, the state-of-the-art Hart teaching facility was commissioned by the school to further enhance the educational experience and build on the school's continued success.

DEWCO were appointed by main contractor Rollalong Ltd to work on the full mechanical design and fit-out for this high-tech contemporary school building, constructed using off-site technology.
