

Admiral's Quay, Southampton

Market Sector: Residential

Client: Allied Developments Limited

Main Contractor: Bouygues Construction

Project Value: £2.2m

The brief:

DEWCO were appointed by main contractor Bouygues, for the full mechanical fit out of this waterfront residential development at Ocean Village in Southampton. This three building scheme which centres around a 26 storey contemporary tower is officially the tallest building in Southampton and was designed to transform the city skyline. Offering 299 luxury apartments, private roof terrace gardens, a landscaped public promenade and eight new bars and restaurants, it was a landmark and highly prestigious development for this coastal city.
